Professors and Instructors

MARQUIS D. HORNBECK, A. M., S. T. B., PRESIDENT
Professor of the Higher Philosophies.

REV. T. J. WHEAT, VICE-PRESIDENT,
Lecturer and Instructor: Evidences of Christianity and External History of the Bible.

W. W. BERRY, LL. B.,
Lecturer, Law School.

J. M. CLARY, LL. B.,
Business College: Professor Commercial Law and Higher Book-keeping.

MRS. HARVEY CHATTEN,
Voice Culture and Sight Singing.

LAWRENCE E. EMMONS, LL. B.,
Dean, Law School: Professor of Torts, Corporations, Common Law Pleadings and Practice.

CARL E. EPLER, LL. B.,
Law School: Professor of Equity, Jurisprudence, Pleadings and Practice.

L. L. EVERLY, A. B.,
Professor of Natural Sciences.

ELIZABETH HENRY, B. S.,
Professor of History and English Literature.

LYDIA K. HORNBECK, A. M.,
Professor of Latin and German.

S. S. HOOVER,
Penmanship and Book-keeping.

M. P. LACKLAND, A. M., B. D.,
Professor of Mathematics.

EDITH T. LACKLAND, PRECEPTRESS,
Instructor in History of Art and Esthetics.

S. L. McCRORY,
Stenography and Typewriting.

J. L. McGIBBONS, A. M.,
Professor of Greek.

J. E. McMURRAY, LL. B.,
Law School: Professor of Contracts, Mercantile Law and Evidence.

MIRIAM NELKE,
Department of Elocution: Principal and Instructor in Art of Expression.

THEODORE B. PAPE, LL. B.,
Law School: Professor of Constitutional Law.

THOMAS R. PETRI, LL. B.,
Lecturer, Law School.

FLORA ROBERTS,
Art Department: Principal and Instructor in Painting and Drawing.

HOMER M. SWOPE, LL. B.,
Law School: Professor of Real Estate and Criminal Law.

MAUDE G. WELLS,
Music Department: Director and Instructor in Piano and Pipe Organ.

General Remarks.

CHADDOCK COLLEGE is located in the beautiful city of Quincy, Illinois. This city is situated upon a stretch of limestone bluffs two hundred and fifty feet above the water's surface, on the east bank of the Mississippi River, the world-renowned Father of Waters, half way between St. Louis and Rock Island, the distance from each of these

SECTION COLLEGE CAMPUS.

cities being one hundred and sixty miles. No more charming and healthy location can be found between the Appalachian and Rocky Mountain ranges. From Sunset hill, in the northern suburbs, may be seen in one view the swift river current, with its bridge, nearly a mile in length, the quiet waters of the bay, stretching back more than three miles, studded all along its banks with factories, saw-mills, great ice-houses and extensive quarries. Beyond the river, the low-lands press back to a distance of ten miles, out of which rise the faint and beautiful outlines of the opposite bluffs. From the crown of the college building one can see, on a clear day, the line of the winding river and the bluffs, made more picturesque by village spires and domes, for a distance of more than twenty

miles. The undulating farm lands, dotted with groves and stately residences, are plainly seen for a dozen miles eastward.

Quincy has forty thousand inhabitants. It has many fine public buildings. Its court house is a massive structure, built of stone, at a cost of more than half a million dollars. Its government building is a unique stone structure, having cost two hundred thousand dollars. The new Public Library building is unsurpassed for modern beauty. A very large city hall is now building. The new hotel, the Newcomb, built and furnished at a cost of nearly two hundred thousand dollars, would be a credit to a much larger city. The Methodist church, just completed, is one of the largest in the west. The scores of elegant residences and great business houses can only be mentioned here.

COLLEGE CAMPUS.

The College Campus is an entire block, of nearly five acres, of gently sloping ground, situated one mile east and south of the court house. The campus contains a great variety of large shade trees and ornamental shrubbery, and has neatly paved walks and drives, which add materially to the beauty of the location and the comfort and convenience of the students.

BUILDINGS.

The main building is a unique, octagonal structure of finely dressed LaPorte marble, four hundred and fifty feet in circumference, and one hundred feet to top of dome, built at a cost of two hundred thousand dollars, and is very attractive in appearance. There are in this building six rooms 35x18 feet in size; eight rooms 24x18 feet, and several smaller rooms, besides an octagonal rotunda, twenty feet in diameter. All these rooms are now in elegant condition and comfortably furnished. The entire building is heated by steam.

Thirty feet west of the college building stands Vickers Hall. This building is 55x110 feet in dimension, four stories high, and is built of brick and stone, with slate roof. It contains, besides a large assembly room, dining hall, kitchen and store rooms, sixty-four neat, airy, commodious and comfortable rooms for students. There are broad stairways at each end of the building. It is supplied with both hydrant and cistern water, hot and cold baths, and appliances for heating throughout with steam.

ADVANTAGES.

Especial attention is called to the advantages, both direct and incidental, which Chaddock College offers to those desiring to secure a liberal education.

The more direct advantages are found in the beauty and attractiveness of the buildings and grounds; the superior facilities and homelike character of the boarding department; the mild yet firm and uniform discipline maintained, constantly instilling by example, rather than by precept, the great importance of self-government; the variety and symmetry of the courses of study; the superior ability and experience of those employed as instructors; and the constant presence and restraining influence of a healthy moral atmosphere, which awakens into action the better qualities of both head and heart.

Among the incidental advantages offered, mention may be made of its location in the Gem City of the Mississippi Valley, a place of unusual business enterprise and thrift, with a large public library and reading room, free to all students; the highest class of musical and literary entertainments in their seasons.

PHYSICAL APPARATUS.

The college has a good working equipment of philosophical apparatus, known as the Abner Clarke collection. Among the more important pieces may be mentioned a three-inch refracting telescope, one of Queen's best air pumps, a polariscope, a Topler-Holtz electrical machine, a plunge battery of great power, electrolysis apparatus, a miniature steam engine, and three compound microscopes, one of which magnifies 30 diameters, one 250 diameters, and one 500 diameters; the latter imported through Queen & Co., from H. Crouch, the famous manufacturer of London, England. Free use is made of this apparatus in demonstrating the principles of Physics and Mechanics.

MUSEUM.

The Museum contains collections of minerals, ores, petrifactions, relics of ancient races, rare coins, and carefully preserved and beautifully mounted specimens of animal life. (Donations to these collections are earnestly requested.)

CHEMICAL LABORATORY.

The work in Chemistry consists of lectures, recitations and laboratory exercises. It is largely experimental, and the application of this science to practical life is clearly indicated. The laboratory is supplied with water, gas, blast pipe, and all other apparatus essential to thorough equipment for General and Analytical Chemistry. Each student is assigned a desk and furnished all needed apparatus. All work in the laboratory is conducted under the personal supervision of the professor.

An incidental fee of $3.50 for each of the first two terms, and $5.00 for the third term, will be charged to cover expense of breakage and material consumed.

BIOLOGY.

Standard text books are used in Zoology, Physiology and Botany. Physiology is demonstrated by reference to a skeleton, chart-manikin, charts, and occasional dissections and experiments. Specimens from the museum are used constantly to illustrate Zoology; individuals who manifest ability will be encouraged to make dissections and collections. In Botany the time is largely devoted to actual study of plants so soon as a sufficient knowledge of the text and ability to analyze has been acquired.

A course of lectures on Vegetable Chemistry and Economical Botany is offered for the third term, 1891, at the option of the professor.

MINERALOGY AND GEOLOGY.

An extended course in Determinative Mineralogy—the principles and facts of this eminently beautiful and practical science being thoroughly

impressed on the student's mind by daily laboratory practice—is followed by a course in Geology. Dana's masterly work is used as a text. The student has free access to the lithological collection in the museum, and frequent excursions are made.

RECITATIONS.

The various courses of study prescribe four regular studies each term, and four recitations per week are held in each regular study; thus providing for each student sixteen regular recitations per week. So far as possible, all recitations are heard in the forenoon, thus giving the students the afternoon and evening for uninterrupted study.

EXAMINATION AND GRADES.

Entrance examinations, for the proper classification of new students, are held on the first day of each term.

Test examinations, for the purpose of more perfectly determining the real work accomplished by each student, will be held from time to time during the term, at the discretion of those in charge of classes.

Examinations upon the entire work of the term, will be held on the last three days of the term, and the examination papers kept on file.

The character of the work performed by each student in every study pursued, is indicated by numbers—100 being perfect. A record of the daily recitations, test examinations and term examinations in each department is preserved; and at the close of each term, from the department records, the grade of every student in each study is determined, and announced upon the college bulletin. The minimum grade in any study upon which a student will be passed is 70.

Accurate records are kept of the date of entrance, course pursued, and grade made in each study of every student; and the grade of any student at the close of each term will be forwarded to parents or guardians upon application.

RHETORICAL EXERCISES.

In addition to the regular work required in English composition in the various courses of study, the following special work will be assigned:

Students not belonging to either of the literary societies will meet once each week for exercises in reading, declamation and English composition.

For the Fall and Winter terms one chapel oration and one essay or thesis will be required of each Junior and Senior, and for the Spring term the same will be required of each Sophomore and Junior.

All students below the Sophomore year who unite with a literary society and satisfactorily perform the duties assigned them, and the editors of the College Monthly will be excused from these exercises.

DEGREES.

The college confers on those who satisfactorily complete the Classical Course, the degree of Bachelor of Arts; the Scientific Course, Bachelor of Science; the Law Course, Bachelor of Laws.

The corresponding Masters' degrees will be conferred upon Bachelors

of three years' standing, who have sustained a good moral character, and have pursued professional or advanced studies.

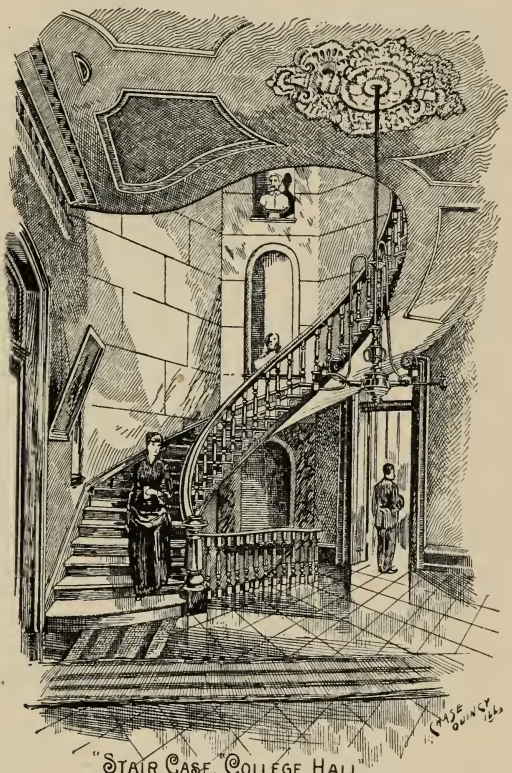
Candidates for Masters' degrees should make application for the same to the President, enclosing the diploma fee, one month prior to the annual Commencement.

Diploma fee for any degree on graduation, $5.00; for any degree *in cursu* or *pro merito*, $10.00; for the degree of Doctor of Divinity, $25.00.

Literary Societies.

There are two Literary Societies, "Cartesian" and "Adelphic", connected with the institution. These hold their sessions on Saturday evening of each week, and, to those connected with them, they afford valuable aid in composition, debate, elocution, parliamentary rules, etc.

Two halls, 35 x 18 feet, located in the upper part of the main building, have been fitted and furnished by the members of the societies for their exclusive use. The halls have been furnished with elegant body Brussels carpets, beautiful chandeliers and other furnishings to correspond. The Literary Society work of the college, has, for the past year, been of a very high order.



"STAIR CASE. COLLEGE HALL"
LEADING TO SOCIETY HALLS.

PRIZES.

Prizes are offered each year for highest excellence in declamation, essay and oration.

The past year Rev. T. J. Wheat awarded ten dollars in gold to Mr. Albert L. Gale, Bushnell, Ill., for the best oration, and President Hornbeck awarded ten dollars in gold to Mr. Charles W. Munson, Farlow, Ill., for the best declamation. These gentlemen will continue these prizes for the coming year, and Rev. Parker Shields, of Hume, Ill., offers ten dollars in gold for the best essay.

RELIGIOUS CULTURE.

While the college is under the auspices of the Methodist Episcopal Church, it does not teach sectarian doctrines. The aim is simply to be truly Christian in theory and practice, and to give all its culture a positive religious character. Daily devotional exercises are held in the chapel, at which all students are required to be present. Students are also required to attend public worship at some of the churches in the city. A college prayer meeting is held one evening each week, and, on Sabbath, Bible classes are taught by members of the Faculty and others, and half an hour is devoted to sacred song. Students are earnestly urged to avail themselves of all these opportunities for moral and religious culture.

The Young Men's Christian Association, and the Young Women's Christian Association, voluntary organizations, by calling out and putting into systematic exercise the religious activities of the students, accomplish great good. A neatly furnished room, especially dedicated to their use, is occupied by them for devotional meetings.

No year has passed in the recent history of the college in which there have not been numbers of conversions among the students. Marked growth has been made by those professing the Christian life when they came. During the past winter nearly all the students in the school were converted. Ninety per cent. of the students departing from the college within the past three years have gone out as professed Christians. Quite a number, whose habits were such, when they came, as to threaten utter ruin to themselves, have been converted and saved. Not one, so far as we know, has left the school in the meantime, with conditions of character the worse for having turned his footsteps hitherward. Should this work of grace continue in the school, Chaddock College may well be called the "revival college".

While the religious life of the student has been so high, the subject of religion has, in no case, been presented in such a way as to displease. The encouragements to become Christians have been so favorable, and the discouragements so trifling, that the irreligious have found themselves willingly drawn over.

TIME OF ENTERING.

The proper time of entering is at the beginning of the term, though students will be received at any time during the school year. Those who contemplate attendance are urged to be present the first day of the school year. Students arriving in the city at any hour of the day or night are invited to come directly to the college, where they will receive a hearty welcome and be assigned comfortable quarters without delay.

REQUIREMENTS FOR ADMISSION.

Candidates for admission, unknown to us, must present certificates of good moral character, signed by one or more trustworthy citizens. Those who have been members of other colleges must present certificates of honorable dismission, and satisfactory proof of preparation for the classes for which they apply.

Candidates for admission are requested to bring certificates, giving in detail the amount and grade of the work they have done.

No student will be permitted to take instruction in music, art or elocution from persons not connected with the college without the consent of the President.

By enrolling, a student is regarded as assenting to the regulations of the college, and therefore he is amenable to its laws until his connection therewith is formally severed by graduation or otherwise.

GOVERNMENT.

The rules of Chaddock College are few and simple, easily remembered and easily observed by all well disposed persons. Gentlemanly or ladylike conduct is all that is required of any one. The government of the institution is mild, but firm, and is designed to be at once preventive and corrective.

Punctual attendance at daily chapel and recitations, faithful performance of all work assigned, and a strict observance of study hours is required of every student.

MORAL HABITS.

The use of intoxicating liquors, playing cards or games of chance, using profane or obscene language, visiting drinking or billiard saloons, disorderly conduct about the buildings or grounds, absence from rooms at improper hours, the use of tobacco on the campus or in the College buildings, marking or damaging the College property, and all other conduct unbecoming a student, are each and all forbidden.

TUITION.

The cost of Tuition in either the Preparatory, Academic, or Collegiate department, is as follows:

Fall Term	$16 00
Winter Term	13 00
Spring Term	11 00
Total	$40 00

Tuition is payable in advance. Students are admitted to recitations only upon presentation of tuition receipt, signed by the Treasurer. This rule will be rigidly adhered to.

Students entering after the second week will be charged *pro rata* tuition for the remainder of the term.

No deductions are made for absence, unless occasioned by serious protracted personal sickness, or such other unforseen circumstances as the Faculty may deem a sufficient reason. In such cases certificates will be issued for the time lost, applicable on future expenses, or transferable, or money refunded.

The sons and daughters of ministers of all denominations admitted on half tuition.

Young men preparing for the ministry admitted on half tuition.

For Boarding see back part of this book.

Department of Letters and Science.

IN the Department of Letters and Science, elementary studies are taught, which prepare the student for the College of Letters and Science. These studies are of such character and so arranged as to give the student suitable mental discipline, and to afford a comprehensive view of the fundamental facts and principles of a liberal education.

Two preparatory courses are presented, each of which requires two years for completion—the Classical and Scientific. Upon the completion of either of these courses the student will be advanced to the corresponding Freshman class.

In addition to the studies indicated in the opposite page the following branches are required:

SPELLING—Daily recitations are held, in which forty words are assigned for study; twenty-five of these are pronounced by the instructor and written by the student. The study of prefixes, suffixes, accentuation and word making receive special attention.

WRITING—This branch is taught throughout the year.

READING—A class in reading is formed each term, in which articulation, pronunciation, accent, and interpretation, receive special attention. The vocal organs receive such attention by voice exercise as will develop the ability to read in a clear, practical and pleasing manner.

SECONDARY CLASSES—For the benefit of students who have had unfavorable opportunities, and are back in grammar and arithmetic, secondary classes will be formed.

The Faculty of the College of Letters and Science teach the classes in this department, thus insuring the best instruction the college affords to the preparatory classes.

Students not wishing to prepare for college are permitted to select such studies as are suitable to their needs. See also Academic Course page 22 for other branches.

College of Letters and Science.

REMARKS.

THE College of Letters and Science presents two courses of study:

1. The Classical Course, requiring four years for completion, and leading to the degree of Bachelor of Arts.

This course has been arranged for those who desire a thorough classical education. In it, prominence is given to the study of Latin and Greek. At the same time, it includes extended research in the subjects of Philosophy, History, Mathematics and Natural Science. The selection and arrangement of studies in this course have been made with reference to the systematic development of the various faculties of the mind and not with a view to any special vocation; and yet because of the superior general culture which its thorough mastery yields, it is well adapted to prepare the student for any pursuit in life, and especially for the learned profession.

2 The Scientific Course, requiring four years for its completion, and leading to the degree of Bachelor of Science.

In this course the studies in the Natural Sciences and Modern Languages are made prominent, while the higher English and Political Science receive due attention. The Greek is omitted and the study of the German language is introduced. If preferred, the student may elect the French language instead of the last four terms of Latin. To those who are seeking a thorough collegiate education, and yet who do not care to pursue the study of the Greek language, this course presents unusual attractions.

Students are urged to carefully select that course which will best subserve their purpose and be most in harmony with their plans in life, and then pursue it to completion. Transferring from one course to another, after the work is well begun, results in loss of time and lack of symmetry in the culture obtained

Students who are not candidates for a degree may select such studies as they desire under the supervision of the Faculty. Upon severing their connection with the institution they will be furnished a certificate of attainment.

Those who have commenced courses of study laid down in previous catalogues and not included in the new regime will be permitted to complete them.

College of Letters and Science.

FACULTY.

MARQUIS D. HORNBECK, A. M., S. T. B., PRESIDENT
Professor of the Higher Philosophies.

REV. T. J. WHEAT, VICE-PRESIDENT,

COURSES OF STUDY.

CLASSICAL COURSE.

FRESHMAN YEAR.

FIRST TERM.

Greek.—Xenophon's Anabasis; Jones' Composition.
Latin.—Cicero's Orations; Jones' Composition.
Mathematics.—Loomis' University Algebra, Completed.
English.—Hart's Rhetoric.

SECOND TERM.

Greek.—Xenophon's Anabasis; Prose Composition.
Latin.—Cicero's Orations; Prose Composition.
Mathematics.—Loomis' Geometry.
History.—Swinton's General History.

THIRD TERM.

Greek.—Homer's Iliad; Greek Mythology.
Latin.—Vergil's Æneid.
Mathematics.—Loomis' Geometry, Completed.
History.—General History, Completed.

SOPHOMORE YEAR.

FIRST TERM.

Greek.—Lysias; Boise's Composition; Political Institutions.
Latin.—Cicero's Philosophical Works; Prose Compostion.
Mathematics.—Loomis' Trigonometry and Surveying.
Science.—Nicholson's Text Book of Zoology.

SECOND TERM

Greek.—Herodotus; Prose Composition, Greek History.
Latin.—Livy; Prose Composition, Roman History.
Mathematics.—Dana's Mechanics.
Science.—Physiology; Martin's Human Body.

THIRD TERM.

Greek.—Homer's Odyssey; Greek Etymology; Homeric Criticism.
Latin.—Plautus or Terence; Latin Etymology; Roman History.
Mathematics.—Bowser's Analytical Geometry, *or French.*
Science.—Gray's Botany.

JUNIOR YEAR.

FIRST TERM.

Latin.—Tacitus' Germania, and Juvenal.
Mathematics.—Bowser's Calculus, *or French.*
English.—Hill's Jevon's Logic.
Science.—Williams' Chemistry; Recitations and Laboratory Work.

SECOND TERM.

Greek.—Demosthenes on the Crown; Greek History.
Latin.—Horace's Odes and Satires; Latin Literature.
Science.—Pynchon's Physics (Heat, Light and Electricity).
Higher Philosophy.—Guizot's History of Civilization,

THIRD TERM.

Greek.—Sophocles' Oedipus Tyrannus; Greek Literature.
Latin.—Horace's Ars Poetica; Latin Literature.
Science.—Hill's Qualitative Analysis.
English.—English and American Literature and Study of Masterpieces.

SENIOR YEAR.

FIRST TERM.

Higher Philosophy.—Porter's Elements of Intellectual Science.
Higher Philosophy.—Schwegler's History of Philosophy, Stirling's Translation.
Science.—Dana's Geology.
English.—English and American Literature, and Study of Masterpieces Completed

SECOND TERM.

Higher Philosophy.—Hopkins' Christian Evidences.
Higher Philosophy.—Janet's Moral Philosophy.
Law.—Woolsey's International Law.
Science.—Astronomy.

THIRD TERM.

Higher Philosophy.—Walker's Political Economy.
Esthetics.—De Forest's History of Art.
English.—Whately's Rhetoric.

SCIENTIFIC COURSE.

FRESHMAN YEAR.

FIRST TERM.

German.—Collar's Eysenbach.
Latin.—Cicero's Orations; Jones' Composition.
Mathematics.—Loomis' University Algebra, Completed.
English.—Hart's Rhetoric.

SECOND TERM.

German.—Collar's Eysenbach.
Latin.—Cicero's Orations; Prose Composition.
Mathematics.—Loomis' Geometry.
History.—Swinton's General History.

THIRD TERM.

German.—Collar's Eysenbach.
Latin.—Vergil's Æneid.
Mathematics.—Loomis' Geometry, Completed.
History.—General History, Completed.

SOPHOMORE YEAR.

FIRST TERM.

German.—Schiller's Jungfrau von Orleans.
Latin.—Cicero's Philosophical Works; Prose Composition.
Mathematics.—Loomis' Trigonometry and Surveying.
Science.—Nicholson's Text Book of Zoology.

Mathematics.—Bowser's Analytical Geometry, *or French.*
Science.—Gray's Botany.

JUNIOR YEAR.

FIRST TERM.

Latin.—Tacitus' Germania, and Juvenal.
Mathematics.—Bowser's Calculus, *or French.*
English.—Hill's Jevon's Logic.
Science.—Williams' Chemistry ; Recitations and Laboratory Work.

SECOND TERM.

Latin.—Horace's Odes and Satires; Latin Literature.
Science.—Pynchon's Physics, (heat, light and electricity.)
Higher Philosophy.—Guizot's History of Civilization.
Esthetics.—Bascom's Esthetics.

THIRD TERM.

Latin.—Horace's Ars Poetica; Latin Literature.
Science.—Hill's Qualitative Analysis.
English.—English and American Literature, and Study of Masterpieces.
Science.—Dana's Mineralogy.

SENIOR YEAR.

FIRST TERM.

Higher Philosophy.—Porter's Elements of Intellectual Science.
Higher Philosophy.—Schwegler's History of Philosophy, Stirling's Translation.
Science.—Dana's Geology.
English.—English and American Literature, and Study of Masterpieces Completed

SECOND TERM.

Higher Philosophy.—Hopkins' Christian Evidences.
Higher Philosophy.—Janet's Moral Philosophy.
Law.—Woolsey's International Law.
Science.—Astronomy.

THIRD TERM.

Higher Philosophy.—Walker's Political Economy.
Esthetics.—DeForest's History of Art.
English.—Whately's Rhetoric.

Academy of Letters and Science.

REMARKS.

THERE are many young men and young women who cannot for various reasons, complete a college course; and yet, they find that in accordance with the spirit of the times a high course of training and liberal culture, is indispensible to their success. They feel that to be deficient in these things is to be deprived of much higher usefulness and happiness.

There is great moral force added to one's character who is conscious of having undertaken and finished some definite enterprise of high order.

The courses of study prescribed for the Academy are higher than the curriculum in any academy of which we have knowledge. They are but two years short of the College Courses.

They are higher than those in the best High Schools. Graduates of High Schools who would like the additional training and culture of a year or two in college, will find their needs met in the Chaddock Academy.

Upon the completion of either the Classical or Scientific course, a diploma will be awarded. No degree will be awarded, as in the College of Letters and Science.

Tuition same as Preparatory and Collegiate. See page 13.

Chaddock Business College.

FACULTY.

M. D. HORNBECK, A. M., PRESIDENT,
Professor of English Language and Lecturer in Business Ethics.

J. M. CLARY, LL.B.,
Professor of Commercial Law and Higher Book-keeping.

M. P. LACKLAND, A. M.,
Professor of Business Arithmetic.

S. S. HOYER,
Instructor in Book-keeping and Penmanship.

S. L. McCRORY,
Instructor Stenography and Type-writing.

LYDIA K. HORNBECK, A. M.,
Professor of Conversational and Business German.

BOOK KEEPING, Stenography and Type-writing are as essential parts of a young person's education to-day as were Reading, Writing and Arithmetic a few years ago. In accordance with these demands Chaddock College added, last year, to the regular Literary Course, Book-keeping and Commercial Law. Thirty-two students enrolled in these branches in the day school, and sixteen in the evening school. Many of these students have demanded a full business course. In order to save them to the institution, and meet the needs of a large number of others, who have signified their intention to enter Chaddock College for a literary course, provided a business course can also be obtained, the trustees, at their annual meeting just closed, arranged for a full and complete business course.

The student seeking more than a mere business education will at once observe the special advantages in attending a business college connected with a literary institution. An opportunity to associate with a high class of students, and to receive instruction from professors high in literary and mental culture, are afforded. Literary societies of first-class order give advantages greatly appreciated by young people. In this country, at least, a business knowledge of German is helpful. German is taught in Chaddock Business College by one who has spoken the German from childhood.

Chaddock College is located at a convenient distance from the business part of the city, out of the noise and dust of the street; is situated upon the highest ground in the city; has an open campus of five acres for out-door sports; is supplied with elegant shade trees and shrubbery; has one of the finest boarding halls in the west, furnished with

hot and cold baths, and heated throughout with steam. The rates are lower than can be obtained for board of the same quality elsewhere in the city.

The recitation rooms are all on the first floor; the society halls are finely fitted up, and are of easy access; a Young Men's and Young Women's Christian Association is organized at the college and affords excellent religious and moral culture for those desiring such To sum up all, we do not know of any Business College in the country affording so many desirable points as Chaddock Business College.

EXERCISE IN FOOT-BALL, EAST SIDE OF THE CAMPUS.

COURSES OF STUDY.

BOOK-KEEPING—A complete course in book-keeping will be taught, including all the elements, single and double entry, banking, wholesale and retail, farming, manufacturing, railroading, steamboating, foreign commerce, exchange, insurance, and all else that pertains to a perfect course in this department.

ACTUAL BUSINESS—A suitable room is now fitting up for this department. There will be two banks, with all necessary desks for operation. Instruction will be given by actual practice in wholesale and retail work, commission sales, foreign exchange, and all usual business transactions. Currency will be supplied the students, and all transactions settled in cash and business paper.

PENMANSHIP—A fine course in Business and Ornamental Penmanship will be conducted throughout the year

BUSINESS ARITHMETIC—Will be taught by a very thorough instructor in mathematics.

COMMERCIAL LAW—Professor Clary is a graduate of the Columbia Law School, and will simplify instruction in this department and make it a most pleasing as well as profitable study.

BUSINESS CORRESPONDENCE—A complete course in this branch is afforded.

TYPE-WRITING—A complete course in Type-writing will be given by a competent instructor.

STENOGRAPHY—Short-hand by the stenographic method is provided for.

SPELLING, READING, GEOGRAPHY, ENGLISH GRAMMAR, AND UNITED STATES HISTORY—Will be taught by the professors in the College of Liberal Arts, thus assuring the best class instruction in these branches. Daily recitations will be conducted and assistance given privately beside, whenever needed.

GERMAN—Business German.

LITERARY SOCIETIES—There are two strong and enthusiastic literary societies, to which the business college students will have access the same as the other students.

BOARDING—Business College students will be admitted to the Vickers' Dormitory upon the same terms as other students. See the last page in this catalogue.

MORAL INFLUENCE—All the moral influences and restraints that apply to other students apply to the Business College students.

RELIGIOUS PRIVILEGES—A Young Men's and Young Woman's Christian Association is in active operation at the college all the year.

TUITION.

A scholarship, providing for unlimited time in which to finish the course will be issued to the student upon the payment of $50.00. No tuition is refunded, but the student will be permitted to return at any time to complete or review the course without extra expense.

TYPE-WRITING—Ten dollars for the first month, and five dollars for each month succeeding, including use of type-writer one hour per day, five days in the week. Course completed in two or three months.

STENOGRAPHY—Ten dollars for term of twenty-five lessons. This course can be completed in two or three terms.

Address M. D. HORNBECK,
QUINCY, ILLINOIS.

Department of Oratory

M. D. HORNBECK, A. M. PRESIDENT.
MIRIAM NELKE, PRINCIPAL,
Instructor in Elocution.

Instruction in English Branches by the Professors in the College of Letters and Science.

MISS NELKE is well known in Quincy as an able instructor in her art. She conducted the Department of Elocution in Chaddock College during the past year with great acceptibility.

The aim of the Department of Oratory, is to provide for the study of the science of simple elocution, purification of the voice, distinct articulation and gesture. Attention is given to the development and proper action of the muscles of expression, the imagination and other mental faculties, so that the student may interpret with ease and precision the best thoughts and feelings of others.

Students will be required to practice thoroughly vocal exercises and æsthetic gymnastics.

The Delsarte system of expression will be followed as taught by the best interpreters in Boston and New York.

Students taking a satisfactory English Course, in addition to elocution, will be graduated with a diploma.

The prizes offered are a great stimulus to the students who study elocution.

TUITION.

Private lessons, 75 cents per lesson. In classes of two or three, per lesson, each student, 50 cents. Term rates in advance.

Extra tuition will be charged for literary studies.

Department of Music

M. D. HORNBECK, A. M., PRESIDENT.

MAUDE G. WELLS, DIRECTOR,
Piano, Theory and Pipe Organ.

MRS. HARVEY CHATTEN,
Voice Culture and Sight Singing.

MISS WELLS is a graduate in pipe organ, and organist at Vermont Street Methodist Church. She is one of the most popular music teachers in Quincy. She is in every way qualified for her work. Her high qualifications are supplemented by almost boundless enthusiasm.

Mrs. Chatten is well known in Qnincy, and far beyond the city, as an able voice trainer, and as the leading singer in the Union Congregational Church Choir.

SUBJECT AND METHOD OF INSTRUCTION.

The course of study includes systematic and progressive instruction in the theory, history and practice of music; and is arranged with a view to enable the student to become an accomplished musician.

THE PIANO.

Lessons on the piano are given privately, or in classes of two, as is deemed best to secure the progress of the students.

COURSE OF INSTRUCTION.

FIRST YEAR.

Exercises by Plaidy or Zwincher.
Studies by Koehler, Loeschorn, Heller and Czerny.
Sonatinas and easy pieces for instruction.
An easy Sonata from Mozart or Haydn.

SECOND YEAR.

Herm Berens, Op. 61.
Czerny's School of Velocity.
Heller, Op. 46 and 47.
Krause, Op. 5.
Sonatas by Mozart.
Mendelssohn's Songs without Words, and other pieces of this grade.

THIRD YEAR.

Czerny, Op. 740.
Cramer's Studies, edited by Von Bulow.
Octave School, by Doering or Kullak.
Pieces by Schubert, Weber, Raff, Merkel, Chopin, and others.

FOURTH YEAR.

Moscheles, Op. 70.
Clementi, Gradus ad Parnassum.
Etudes, by Chopin.
Beethoven, Sonatas; Pieces by Schumann.
Chopin, Liszt and others.
One Concerto, by Beethoven or Mendelssohn.

CULTIVATION OF THE VOICE.

This important branch of musical instruction receives careful attention. Students are trained either singly or in classes; and in the classes ample opportunity is afforded for the individual student to observe the efforts of others, and to hear the criticisms of the Professor upon their exercises. The development of the same timbre and beauty of tone throughout the entire voice, correct breathing, correct vowel formation, articulation and pronunciation, receive first attention.

Vocalizes or Concone, Sieber, Abt, Panafka, and others are employed, and the works of the best German, Italian and French song writers interpreted, as the student's ability may warrant.

RECITALS.

All students of music are required to be present at the Recitals; at which every student will be called upon to perform, at least once each term. Critical remarks are made by the Professors upon the merits of the pieces rendered, and their relations to other works by the same or other authors.

THEORY OF MUSIC.

The Theory of Music, embracing Harmony, Musical Forms, Counterpoint and Fugue, is taught in classes. Instruction is given in lectures, with abundant illustrations and explanations upon the blackboard; of which the students are required to make careful digests.

TUITION.

FALL TERM.

Private Lessons (45 minutes each), 2 per week, 14 weeks	$21 00
Private Lessons (45 minutes each), 1 per week, 14 weeks	11 00

Three hours per day..... 7 00
Half Term, half rates. No arrangements made for less than Half Term.

TUITION, PIPE ORGAN.

Private Lessons (60 minutes each), 1 per week, 14 weeks.....$14 00
Extra Tuition will be charged for Literary studies.

Department of Fine Arts

FACULTY.

M. D. HORNBECK, A. M., PRESIDENT.

FLORA ROBERTS,
Principal and Instructor in Painting and Drawing.

Miss Roberts has studied several seasons under able artists, and will spend the summer teaching in the Art Department at Chautauqua.

COURSE OF STUDY.

FIRST YEAR.—Practice in charcoal, crayon and penciling, copying from the flat. Drawing from objects, in either charcoal, crayon or pencil. Lessons in perspective. Painting in oil or water colors, with special instruction in regard to color.

SECOND YEAR.—Drawing from the antique,—hands, feet and busts. Painting in oil and water colors. Lectures on Artistic Anatomy. Drawing from nature.

THIRD YEAR.—Drawing from the antique,—busts and statue. Drawing and painting from landscape, still life, etc. Lectures on proportion and history of Art. Review of the full course.

The course of study in this department is designed to be comprehensive and thorough. The recent revival in Art in all its branches, and especially its rapid revival in America, has produced a demand for æsthetical studies hitherto unknown. Henceforth, study in the departments of Fine Arts must be considered one of the essential accomplishments of cultured society. Miss Roberts is continued in this department, and rare opportunities are offered to those contemplating the study of Art in any or all of its branches.

TUITION.

Pencil drawing, 12 lessons	$ 3 00
Sketching from nature, crayon and charcoal work, 24 lessons	7 50
" " " " " " " 12 "	4 00
" " " " " " " single lesson	35
China painting, water colors, pastel, decorative art, 24 lessons	15 00
" " " " " " " 12 "	8 00
" " " " " " " single lesson	75

In addition to the regular course in art, as above described, instruction will be given, if desired, in woodcarving and portraiture in crayon and pastel.

Extra tuition will be charged for literary studies.

School of Law

FACULTY.

MARQUIS D. HORNBECK, A. M., PRESIDENT.

LAWRENCE E. EMMONS, LL. B., DEAN,
Professor of Torts, Corporations, Common Law Pleadings and Practice.

W. W. BERRY, LECTURER.

HOMER M. SWOPE, LL. B.,
Professor of Real Estate and Criminal Law.

THOMAS R. PETRI, LECTURER.

CARL E. EPLER, LL. B.,
Professor of Equity, Jurisprudence, Pleadings and Practice.

THEODORE B. PAPE, LL. B.,
Professor of Constitutional Law.

J. E. McMURRAY, SECRETARY.
Professor of Contracts, Mercantile Law and Evidence.

School of Law.

REMARKS.

THE regular course of study extends over and is completed in two years; but it is so arranged that students entering either year, can finish in the succeeding one. Juniors and Seniors attend the same lectures and recitations.

The subjects embraced in the course are as follows:

FIRST YEAR—Criminal Law and Torts, Real Estate, Equity and Jurisprudence, Contracts, Constitutional Law.

SECOND YEAR—Common Law Pleading and Practice, Domestic Relations, Equity Pleading and Practice, Mercantile Law, Evidence and Corporations.

The first year's course will be taken in the College year, 1890–91.

A well-considered course of instruction, by lecture and recitation, has been inaugurated. It aims to give the student a systematic knowledge of the principles of the law and a thorough training for the duties of the profession.

REQUIREMENTS FOR ADMISSION.

Any person of good moral character and good English education is at liberty to matriculate in the Law Department and have a seat assigned to him for attendance upon the lectures and recitations. If the person applying for admission intends to be a candidate for a degree at the end of his course, he must satisfy the Faculty of his proficiency in the common English branches by examination or otherwise. A College diploma, or a diploma from any State Normal School, or any educational institution of corresponding grade, will be accepted as a substitute for an oral examination.

MORALS.

While endeavoring to impart legal knowledge, the fact will not be lost sight of that a high moral standard is a most important requisite to a successful and honorable career; and no pains will be spared in impressing this fact upon students and in inculcating a high tone of professional ethics and conduct.

THESIS.

Each candidate for graduation, is required to prepare and deposit with the Faculty, at least one month before Commencement, a thesis of not less than twenty, nor more than thirty pages of legal cap, upon some topic selected by himself. The dissertation must be satisfactory in matter, form and style.

MEDAL.

The Law Faculty offer a gold medal for the best law thesis written by a member of the graduating class, to be awarded annually on Commencement Day of the Law Department.

MOOT AND CLUB COURTS.

Moot Courts will be held at convenient times, presided over by some member of the Faculty, in which every student will be required to take part, in one case each term. The organization of Club Courts, to be wholly under the control of the students, will be encouraged.

COLLEGE CONNECTION.

Many students find themselves embarrassed on the very threshold of their studies, for want of acquaintance with Latin, and other studies which they have not had the opportunity of taking. In view of the difficulties thus experienced every year, by many meritorious students, arrangements have been made that any person regularly matriculated in the School of Law, may take any two of the scientific or literary studies in the other departments of the college, free of charge.

Students, who from any cause, have not acquired sufficient education, will find this special feature of the college of great practical advantage and value in the study and practice of law.

COURTS.

The Circuit Court is in session during the entire scholastic year, with the exception of possibly four or five weeks. Important probate business is transacted in the County Court, almost every day, besides its three regular law terms. The city courts are in session every morning at the City Hall; and students, when not engaged at lectures or recitations, may attend any of these courts, and will usually find some member of the Faculty present, who will explain the practice.

DEGREE AND DIPLOMA.

The degree of Bachelor of Laws is conferred upon all who complete the full course of study, on passing a satisfactory written and oral examination before the Faculty. The diploma admits to the Bar of Illinois, when the student has taken the full course of two years in this school.

ADVANCED STANDING.

Students who furnish satisfactory evidence of having completed the regular course for one year, in any law school, whose curriculum and requirements are equal to those of this school, or who have already been licensed to practice law, or who have read one full year in the office of some attorney in active practice, may enter the course; and in one year, on complying with other conditions prescribed, graduate and receive a diploma from this institution.

LAW STUDENTS.

Ladies are admitted to Chaddock School of Law on the same terms as gentlemen; and when they have completed the course of study, will receive the diploma of the institution, and license to practice law in this state.

FEES AND EXPENSES.

Matriculation free.

Tuition, in advance, per term	$20 00
Graduating Fee and Diploma	5 00
Tuition per year, in advance	50 00

Board and furnished room in dormitory building, including light and heat, same as other students. No fees will be refunded on account of the students being unable to attend, but if an entire term is lost, free tuition will be given for one term of the next year.

BOOKS.

Students are expected to provide themselves with books. Arrangements are made to get text books at figures lower than catalogue prices. Students also have free access to the college and city libraries, and also have opportunity to consult the many fine libraries of the Quincy bar.

The following will be used as text books:

FIRST YEAR.—Cooley's Blackstone Commentaries; Washburn's Criminal Laws; Parsons on Contracts; Cooley on Torts; Stephen on Pleadings; Washburn on Real Property; Story's Equity Jurisprudence; Boone on Corporations.

SECOND YEAR—Chitty on Pleading; Edwards' Notes and Nogotiable Instruments; Greenleaf on Evidence; Story's Equity Pleadings; Boone on Corporations; Cooley's Constitutional Limitations.

TERMS AND VACATIONS.

The Fall Term of the Law Department will open Monday, September 15, 1890; Winter Term, Monday, January 5, 1891, and the Spring Term, Monday, March 30, 1891.

Students or other persons, desiring further information respecting Chaddock College Law School, are requested to call on, or address, the Secretary of the Law Faculty.

J. E. McMURRAY, LL. B., Secretary.

Boarding

VICKERS HALL, described on page 2, is open for boarders from all departments of the institution. Each student rooming in the Hall is required to furnish one comfort, two sheets, three towels, three napkins, two pillow cases, one pillow, toilet soap, matches, broom and a coal-

VICKERS HALL. COLLEGE HALL.

oil lamp. Each imperishable article should be indelibly marked with the owner's name. The Hall authorities furnish bedsteads, springs, mattresses, chairs, tables, wash-stands, mirrors and wardrobes. Carpets are furnished for ladies, and nicely painted floors for gentlemen.

TERMS.

ROOMS AND TABLE BOARD.

Cash in advance:—

Fall Term, 15 weeks, per week $3.25	$ 48.75
Winter Term, 12 weeks, per week $3.25	39.00
Spring Term, 11 weeks, per week $3.25	35.75
If not paid in advance, payable monthly, per week	3.75
For less than one term, payable monthly, per week	3.75
If paid in advance for the entire year, board and room	110.00

Students rooming alone from preference will be charged fifty cents per week extra.

When time has been lost on account of serious personal sickness or such other unforseen circumstances as the Faculty may deem a sufficient reason, advanced money will be credited on future expense, or refunded after deducting at the rate of $3.75 per week for full board, or $3.00 for table board for time in attendance.

INCIDENTAL FEE.

At an expense of about $5,000 appliances have been placed in the college and dormitory buildings for heating with steam. These improved conditions for health, safety and cleanliness are very desirable. In addition to the above expense, the students boarding in Vickers Hall are charged for light and heat the Fall Term, $3.00; Winter Term, $5.00; Spring Term, $2.00.

It is best to send money direct to the President of the College. When students do not settle bills in advance, bills will be reported montly to parents or guardians. Parents should require their children to keep an account of expenses and report to them at least monthly.

BOARDING ELSEWHERE.

Boarding can be secured at private residences, boarding houses and hotels at $3.50 to $5 00 per week.

Some of our best and most respected students secure rooms, obtain supplies from home and board at a cost of one dollar per week. By purchasing supplies, self-boarding costs from $2.00 to $2.50 per week. A boarding club will be organized in which students can get meals at $1.75 to $2.00 per week.

Students over age board where they choose, and those under age where their parents or guardians designate, but those of any age boarding in the dormitory are subject to all rules governing the same. In the dormitory regular hours for study are from 1:45 o'clock to 4:30 P. M., and from 6:30 to 9:30 P. M. All are required to retire at 10:00 P. M. and rise at 6:00 A. M. Recitation hours are from 8:00 A. M. to 12:15 P. M. Students desiring to absent themselves within recitation or study hours must obtain permission, and visiting within study or recitation hours is forbidden. Address

M. D. HORNBECK, President.
